Schedule of Shaowei's ISG

Oct 10: Make the points in the scatterplot can be drag and try to make the coordinate of points can be posted to the server.

Oct 24: Try to figure out the algorithm that calculate the new Dis-function.

Nov 7: Implement the algorithms that calculate the new Dis-function.

Nov 14: Draw new scatterplot based on new Dis-function.

Nov 28: Add two slopecharts that visualize the original features of the dataset and new weighted features of the dataset which also correspond to scatterplot.

Dec 12: Demo.
